MCMOA Member Services

The Michigan Coin Machine Operators Association was formed in 1974 as a subsidiary of the Michigan Distributors and Vendors Association with less than 15 members. Today, the membership is growing, but we need new members.

Over the years, MCMOA has defended its members and advanced their interests on issues intended to save money and protect their businesses. MCMOA is always working for you! It is the only statewide organization representing your specific interests.

What Have We Done For You?

- MCMOA continuously works with sponsors of all legislative issues involving gaming and video lottery to ensure operator's interests are protected and represented.
- MCMOA defeated an amendment that would have required statewide registration of all amusement devices.
- MCMOA has regularly defeated a bill that would place a sales tax and/or a gross receipts tax on game revenues.

- MCMOA received approval from the charitable gaming division of lottery to hold tournaments.
